<b>Office Action Summary</b>	<b>Application No.</b> 10/562,219	<b>Applicant(s)</b> KONDO ET AL.	
	<b>Examiner</b> RAMYA PRAKASAM	<b>Art Unit</b> 3651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Group I, directed to Claims 1-2 and 5-6 in the reply filed on 3/4/2009 is acknowledged.

### ***Claim Objections***

2. The claims are objected to because, as provided in 37 CFR 1.75(i), where a claim sets forth a plurality of elements or steps, each element or step of the claim should be separated by a line indentation. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-2 and 5-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

6. Claims 1-2 and 5-6 provide that the displacement value is detected, however it is also computed. Why would a value be detected, and then computed? Are they different values? If so, the claim would need to indicate that there are two different values. Currently, it appears that the value that is computed is the same value that is detected by the detection means. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. As best understood by the examiner, Claims 1-2 and 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakashima (US Patent Application Publication No. 2002/0017433).

As best understood by the examiner, Nakashima discloses an assist transportation method and device for reducing a load applied to a worker when the worker operates transportation means (120) to transport a product, comprising:

- Holding means (104) for holding the product;
- A floating mechanism (110) set to the connection portion between the holding means and the transportation means;
- Displacement detection means (138) for detecting the displacement value of the floating mechanism;
- Control means for computing the displacement value detected by the displacement detection means and computing a reaction force (See Paragraph 42);
- Communicating the reaction force to the worker (See Paragraph 42).

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
